## Epa

----- Note on the Membrane Filtration Guidance Manual Purpose The purpose of this guidance manual is to provide technical information on the use of membrane filtration and application of the technology for compliance with the Long Term 2 Enhanced Surface Water Treatment Rule, which would require certain systems to provide additional treatment for Cryptosporidium. Manual provides guidance on the selection, design, and operation of membrane filtration to comply with the treatment requirements of the Long Term 2 Enhanced Surface Water Treatment Rule (LT2 ESWTR). Assists States and Public Water Systems (PWS) in evaluation of membrane filtration treatment to implement the requirements of the LT2 ESWTR.

Note on the Membrane Filtration Guidance Manual Purpose The purpose of this guidance manual is to provide technical information on the use of membrane filtration and application of the technology for compliance with the Long Term 2 Enhanced Surface Water Treatment Rule, which would require certain systems to provide additional Membrane Filtration Guidance Manual Description: Surface water systems required to provide treatment under the LT2 rule can utilize membrane filtration as one of the “microbial toolbox” treatment options. This manual is designed to provide surface water systems with an overview of membrane filtration.
