International Federation of Red Cross and Red Crescent Societies International first aid and resuscitation guidelines 2016 5 Psychological first aid 135 Introduction 135 Budesonide is a white to off-white, tasteless, odorless powder that is practically insoluble in water and heptane, sparingly soluble in ethanol, and freely soluble in chloroform. Its partition coefficient between octanol and water at pH 5 is  $1.6 \times 10^3$  ionic strength 0.01. Entocort EC is formulated as hard gelatin capsules filled with enteric-coated granules that dissolve at pH greater than 5.5. This is an acute (<24 hours), immunological transfusion reaction. When to suspect this adverse reaction? Acute onset of fever, chills, dyspnoea, tachypnoea, tachycardia, hypotension, hypoxaemia and noncardiogenic bilateral pulmonary oedema leading to respiratory failure during or within 6 hours of transfusion. Blue Cross and Blue Care Network provide a variety of training opportunities to learn about e-referral. Your provider consultant is available by appointment to visit your office and assist with your e-referral training needs. We offer the following training tools for the e-referral tool: User guides and documentation
